

## Official Country Partner Design For Change School Challenge HONG KONG

'Design For Change' School Challenge is a global movement designed to give young people a simple tool to 'invent' a future that is desired, and then set about putting that into action.

This movement has been conceptualized and promoted by The Riverside School, Ahmedabad in India, and since 2009, it has been able to inspire hundreds of thousands of children, their teachers and parents across more than 30 countries, to discover that they matter, that change is possible and that they can lead and 'be the change' themselves.

Through its simple framework of Feel, Imagine, DO and Share, children of all ages are dreaming up and leading brilliant ideas all over the world, from stopping child marriages to tackling drug addiction and from spreading literacy to caring for the elderly - children are proving that 'I CAN' are the two most powerful words a person can believe.

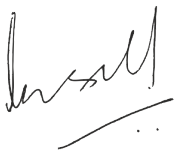

To spread this movement further in Hong Kong, we are pleased to entitle the responsibility to organize, manage and propagate

### Design for Change 2015-2016 in Hong Kong to IP Man Him Jeffrey

He is authorized to brand the Design for Change School Challenge, seek required sponsorship and take decisions pertaining to it.

We have full faith that the **Jeffrey** will run the Design for Change School Challenge in Hong Kong in its truest spirit and intent.

Regards,

Kiran Sethi  
Founder, Design for Change
